

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-5, 7-9 and 25-30 are allowed over the prior art of record. Current invention teaches a collection of particles in a powder comprising crystalline zinc oxide, where the specifics of "the collection of particles have an average diameter less than about 95 nm and a distribution of particle sizes such that at least 95 percent of the particles have a diameter greater than about 40 percent of the average diameter and less than about 160 percent of the average diameter" is claimed. All of Applicant's arguments, and specifically applicant's clarification of the term particle, in the brief filed 1/21/05, pages 10-11, where "as disclosed and claimed by Appellants it is clear that the claimed term particle is referring to physical particles or secondary particles, and not to fuse primary particles" are incorporated into this reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to K. Richard Lee whose telephone number is (571)272-1994. The examiner can normally be reached on M and W-F from 5:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin G. Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
